WORK EXPERIENCE

IBM

Casablanca

Full Stack Developer Intern

Jun 2022 - Aug 2022

- Designed and implemented the frontend of "Find_IT" using Angular, ensuring a responsive and user-friendly interface.
- Developed the backend services using .NET, enabling robust and scalable functionality.
- Integrated Docker for containerization, which streamlined the deployment process and improved consistency across different environments.
- Utilized Git for version control, ensuring effective collaboration and code management throughout the development process.

EDUCATION

Mohammed VI Polytechnic University - 1337 School

Benguerir

Bachelor's degree in Software Engineering

P-TECH Casablanca

Casablanca

BTS Development of Information Systems (DSI)

Graduation Date: Jul 2022

PROJECT EXPERIENCE

Self-Taught

Benguerir

Job Portal - Application Web

May 2024 - Present

- Developed a comprehensive Job Portal Web Application designed to connect job seekers with employers.
- The platform includes features for job posting, job searching, application tracking, and user management, facilitating a seamless and efficient job search and recruitment process.
- Job Search and Application: Created an intuitive job search functionality for job seekers, including filters and search criteria to find relevant job listings quickly.

PingPong - Real-Time Ping Pong Game and Communication Platform

Feb 2024 - May 2024

- Designed and implemented real-time ping pong gameplay using WebSocket for low-latency communication, ensuring smooth and responsive player interactions.
- Integrated instant messaging functionality, allowing users to communicate seamlessly during gameplay.
- Added video calling capabilities to enhance user engagement and provide a richer interaction experience.
- Developed channels feature to support group communications and collaborative play, making it easy for users to create and join different rooms.
- Utilized React with TypeScript to build a dynamic and user-friendly interface, ensuring a high-quality user experience.
- Built scalable and efficient backend services using NestJS, ensuring robust performance and security.
- Employed PostgreSQL for reliable and efficient data storage, ensuring data integrity and quick access.

SKILLS

Java (Spring Boot), .NET, Nodejs, Angular, React, TypeScript, PostgreSql, Mysql, IBM DB2.
